## About Me

I'm Vignesh Palanichamy, a Full Stack Developer passionate about building fast, scalable, and user-friendly web applications. I primarily work with React.js, Next.js, Node.js, and MongoDB to develop modern full-stack solutions with clean UI and efficient backend systems. I also enjoy exploring interactive web experiences using Three.js and WebGL. I'm a quick learner who enjoys solving real-world problems and turning ideas into practical digital products.

## Work Experience

**Software Developer Intern**
Fusion Space
*Feb2025 to Present*

- Currently exploring 3D web technologies like Three.js and WebGL to create interactive and immersive web projects.
- Developed smart features using AI tools to personalize user interactions and automate workflows.
- Worked on backend APIs with Node.js and Express, and integrated MongoDB for data management.

**Full Stack Web Developer Intern**
NextOneSolution
*Dec 2023 to Jan 2025 (1 yr 2months)*

- Developed and deployed web apps using React.js, Next.js, Node.js, and MongoDB, focusing on performance and maintainability
- Built clean, responsive UIs and connected backend APIs to ensure fast load times and a better user experience
- Currently exploring 3D web technologies like Three.js and WebGL to create interactive and immersive web projects

**Software Engineer Intern**
THE RECIPROCAL SOLUTIONS
*Sep 2023 to Dec 2023 (4 months)*

- Built responsive, user-friendly interfaces using HTML, CSS, JavaScript, and React.js, contributing to real-world client projects
- Rapidly upskilled in modern frontend development, learning best practices in component design, state management, and performance optimization
- Collaborated in a professional development team, using Git for version control and participating in agile sprints and code reviews

## Relevant Skills

Languages
JavaScript | Python

Frontend Development
Next.js | React.js |Three.js | Html5 | Tailwind CSS | Bootstrap

Backend Development
Node js | Express js

Version Control
Git | Github

Database
Firebase | MongoDB

3D Development
Three.js | Blender | Other 3D-related libraries

## Education History

**B.Tech. in Industrial Biotechnology**
*Government College of Technology*
*(2023-2027) - Expected Graduation: 2027*

**Higher Secondary Certificate**
MCTRM Higher Secondary School(2023)

**Secondary School Leaving Certificate**
MCTRM Higher Secondary School(2020)

## Projects

**Zenith Mentor**
Created a coding practice platform with real-time code execution and test case support. Built using React, Next.js, Node.js, MongoDB, and Judge0 API.
**Link:** coder-blush.vercel.app

**The Reciprocal Solutions**
Built a Next.js dynamic website for a client using Next.js (React) and Tailwind CSS.
**Link:** thereciprocalsolutions.com

**Cognoid**
Developed two production-ready websites for the company using Next.js, Node.js, and MongoDB
**Link:** www.cognoidsystems.com

**Relationswork**
RelationsWork, a Next.js website with a blogging system, secure login, and an admin panel for managing blogs.
**Link:** www.relationswork.in

## Achievements & Certifications

- Node.js – Udemy (2023)
- AI-Powered Student Assistance Chatbot, SIH 2024 — Selected at College Level (2024)
